

## LEOPOLD BROS. FRENCHPRESS AMERICAN COFFEE LIQUEUR

*We begin by pressing a proprietary blend of freshly roasted coffee beans in our twenty-five litre waterpress. The press acts like a sieve, preserving the full-bodied, natural flavor of the beans once the coffee has been added to our spirit. We then add a touch of raw cane sugar to balance the acidity, and bottle the blend while it is still warm to lock in the fragrant coffee aroma. Available year-round.*

20% ABV / 40 Proof  
750ml

The coffee beans are  
roasted by a family  
business in Fort Collins,  
Colorado.
